

The Journal of Grey System

Contents

On discrete grey system forecasting model corresponding with polynomial time-vary sequence	
Naiming Xie, Chaoyu Zhu, Sifeng Liu, Yingjie Yang	1
Grey Relational Analysis of the Financial Sector in Europe	
Delcea Camelia, Scarlat Emil, Cofas Liviu-Adrian	19
Research on prediction model of oscillatory sequence based on GM (1, 1) and its application in electricity demand prediction	
Bo Zeng, Wei Meng, Sifeng Liu, Naiming Xie, Chuan Li, Jie Cui	31
An Optimal Cost-Sharing Incentive Model of Main Manufacturer-Suppliers for Complex Equipment under Grey Information	
Hongzhan Chen, Lulu Song, Sifeng Liu, Zhigeng Fang, Lifang He	41
Study on the Regional Differences of CDM Projects in China	
Dinglin Liu, Xianglian Zhao, Yan Zhang	53
Research on Grey Relational Evaluation of the Competitiveness of Aviation Industrial Cluster: by Taking Xi'an Yanliang Aviation Park as an Example	
Yuming Zhu, Qingye Han	62
Generalized Grey Relation Analysis Based on Approximate True Starting Points	
Chaoqing Yuan, Yingjie Yang, LuLu Shui	71
Study on grey prediction model GM(1,1) based on amplitude compression transformation and its application	
Wuyong Qian ,Yaoguo Dang,Sifeng Liu,Yuhong Wang	79
Edge preserving image denoising using convolutions operators and Grey Forecast Model	
Qiuping Wang,Weilin Zhang, Xiaofeng WANG	88

Employing GA-based Adaptive Grey Model for Learning with Short-term Sequence Data
