

The Journal of Grey System

Contents

The Further Discussion of Distribution and Characters of Grey Potential Degrees Aiqing Ruan, Yinao Wang	1
The Relationship of Discrete Grey Forecasting Model DGM and GM(1, 1) Model Jun Liu , Xinping Xiao	14
Chaos-based Modified GM(1,1) Power Model in Time Series Prediction Jianshan Lu, Weidong Xie, Aijun Zhang, Changming Wang	32
p-Moment Stability Analysis of Impulsive Stochastic Functional Differential Systems and Its Application in Grey System Chunhua Su , Dang Luo	44
Proximity and Similitude of Sequences Based on Grey Relational Analysis Chaoqing Yuan, Yingjie Yang, Ding Chen, Sifeng Liu	57
On Parameters of GM(1,1,β) Model and Applied for Forecasting the Added Value of the Financial Industry Li Li, Renxiang Wang, Xican Li	75
The Construction of the Framework of Grey Prediction Theory for Competitive Sports Jiajin Liu, Jianguo Shen, Yi Li, Yuefeng Wang	89
The use of GM(1,1) Model in Predicting Request Arrival Rate for cloud-based web application Xiaoping Jiang, Chenghua Li, Lei Su, Liyu Liang, Teng Jiang	97

**Hybrid Grey Modification Model with a Fourier Series and
Exponential Smoothing Optimization Technique**

Yu-Tung Lin, Chin-Shyurng Fahn, Po-Lin Yeh, Hui-Fen Hung, Pin-Chan
Lee , Yen-Tseng Hsu 108

**Grey GM(1,1) Power Pharmacokinetics Model Coupling
Self-memory Principle of Dynamic System**

Xiaojun Guo , Sifeng Liu , Lifeng Wu, Lili Qian 122
