

The Journal of Grey System

Contents

The Father of Grey System Theory Sifeng Liu	1
Structure Analysis of Performance for Chinese Regional Environmental Protection Institutional System Based on G-TODIM Method Wenping Wang, Wenxin Mao, Dang Luo	4
Grey Maximum Distance to Average Vector Based on Quasi - identifier Attribute Hong Liu, Qishan Zhang, Kun Guo, Yingyi Wu	21
Double Quantitative Analysis of the Effects of Meteorological Factors on Winter Wheat Yield at Different Growth Stages Based on Grey Relational Analysis Bingjun Li, Tianhui Wang, Fanlin Meng	31
Information Elements Based Grey Number Linear Algorithm and Grey Linear Space Nanlei Chen, Naiming Xie, Bentao Su	44
Absolute Degree of Grey Incidences for Matrix Sequence and Its Application Ke Zhang, Qiuping Zhong, Jingchun Feng, Haiwei Zhou, Hui Fen	56
Grey Target Decision Model based on Interval Grey Number Type Panel Data and its Application Wuyong Qian, Xin Yang, Jialing Li	69
Research on the Synergy Development of China's IOT Industry Xiaozhong Li, Ying Wang, Hailei Zhao	81
Nonlinear time-delay System Identification and Prediction Based on Multi-dimensional Taylor Network and IPSO Chenlong Li, Hongsen Yan	96
Grey GERT Network Model of Equipment Lifetime Evaluation Based on Small Samples Xiaoyu Yang, Zhigeng Fang, Liangyan Tao	110
Grey Incidence Analysis Model of Classification Variables and Its	

Application on Innovation & Entrepreneurship Education in Jiangsu Jing Xu, Yaping Li	123
Research on the Profit Distribution of Crowdsourcing under the Consideration of the Value Creators' Fairness Preference Yanfeng Chu, Huijuan Cao	129
Multivariate Grey Disaster Prediction Model Based on Catastrophe Date Matrix Kedong Yin, Jing Liu, Xue Jin, Xuemei Li	140
Sustainability of Defense Expenditure: An Investigation on the Big Countries Based on Grey Incidence Analysis Chaoqing Yuan	151
Forecasting the Electricity Consumption of Commercial Sector in Hong Kong Using a Novel Grey Dynamic Prediction Model Bo Zeng, Yongtao Tan, Hui Xu, Jing Quan, Luyun Wang, Xueyu Zhou	159
Improved Unequal-interval Grey Verhulst Model and Its Application Nanyan Hu, Yicheng Ye, Yaqi Lu, Jingjing Luo, Kai Cao	175
An Improved T-GM(1,1) and It's Application Bigui Wei	186
Establishing Grey Criteria Similarity Measures for Multi-criteria Recommender Systems Yi-Chung Hu, Yu-Jing Chiu, Jung-Fa Tsai	194
Reconstruction of Vibrating Displacement with Limited Test Samples Based on a Modified Non-Equidistant Model Wensong Jiang, Zhongyu Wang, Li Zhang, Jun Yang, Jeffrey Forrest, Hongyang Li	208
An Optimization Method of Multi-Variable MGM (1, m) Prediction Model's Background Value Jin Dai, Huijie Liu, Yannan Sun, Mei Wang	221
Multivariable Non-equidistance Grey Model with Fractional Order Accumulation and its Application Youxin Luo, Qiyuan Liu	239
