# The Journal of Grey System

## Contents

**A Novel Grey Incidence Decision-making Method Based on Close Degree and Its Application in Manufacturing Industry Upgrading**

Peng Yu, Heng Ma, Yingjie Yang, Xiaochuan Li, David Mba 1

**Grey Relational Local Regression Estimation Model of Soil Water Content Based on Hyperspectral Data**

Xuesong Cao, Xican Li, Haoran Zhai, Hao Zhong, Zhengyan Li 20

**Income-Growth Effects of The Rural Industry Integration In Zhejiang Province Of China—An Application of The New GRA Embedded Panel Data Regression Model**

Yiqin Hu, Shuting Xu 34

**A Generalized Multivariate Grey Prediction Model  $DGM(1,N,\tau_i)$  With Unknown Time Delays**

Chong Li , Xiuping Xie 50

**An Improved Non-Equal Interval GM(1,1) Model Based On Grey Derivative And Accumulation**

Liwei Tang, Yayun Lu 77

**A New Approach for Interval Grey Numbers: n-th Order Degree of Greyness**

Erdal Aydemir 89

**A Grey Correlational Analysis Method Based on Cross-correlation Time-delay**

Song Zheng , Jialin Shi, Dan Luo 104

**The Measurement and Comparison of Leading Innovation Incentives of Chinese Provincial Small and Medium Sized Industrial Enterprises Based on Matrix Grey Clustering**

Hongqi Liu, Zhigeng Fang, Yong Liu 119

**Feature Selection For Chiller Fault Detection And Diagnosis Based On Grey Similitude Degree Of Incidence**

Hua Liu, Zhiping Zhang , Zhanwei Wang 136

**Modelling and Control Structure of a Phosphorite Sinter Process with Grey System Theory**

Nigina Toktassynova<sup>1</sup>, Hassen Fourati, Batyrbek Suleimenov 150

**Author Guidelines**
