

The Journal of Grey System

Contents

A Novel EGM(1,1) Model Based On Kernel And Degree Of Greyness And Its Application On Smog Prediction Hui Shu, Pingping Xiong, Shiting Chen	1
Using Improved Non-linear Multivariate Grey Bernoulli Model to Evaluate China's CO2 Emission Cholho Pang, Decheng Fan, Jongsu Kim, Yonsun O	15
Relevance of Quality Infrastructure with Promoting Export Quality: Evidence from Emerging Markets Mengdie Huang, Tangbin Xia, Hao Zhang, Ershun Pan, Lifeng Xi	32
An Integrated Model Combining Grey Methods and Neural Networks and Its Application to Bursty Topic Tendency Prediction Yuling Hong, Qishan Zhang, Yingjie Yang, Ling Wu	52
A Case-based Grey Relational Analysis Model for Multiple Criteria Classification of Thyroid Nodules Hongjun Sun, Feihong Yu, Haiyan Xu, Houxue Xia	65
Grey Target Group Decision Model Based on Expected Intervals of Experts Xudong Xie, Mingli Hu, Yingjie Yang, Yuwen Zhang	77
Forecasting Realized Volatility in A Heterogeneous Market: A GM(1,1) Approach Xiaojun Chu, Qiang Huang, Guo Wei	90

Relationship Between Pore Structure And Bending Strength Of Concrete Under A High-Low Temperature Cycle Based On Grey System Theory

Jinna Shi, Yanru Zhao, Bo Zeng

101

A Variable Selection Method for GM(1,N) Model

Dang Luo, Xiaolei Wang, Yimeng An

119

Research on Improved GM (1,1) Model Based on Optimization of Initial Item and Background Value

Yuhong Wang, Jie Lu
