

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – AUGUST 2005

- 146 **Editorial** – *Focus on Africa* – Leonard G. Copping
- 148 **Fungi for biological control of weedy Cyperaceae, with emphasis on purple and yellow nutsedges (*Cyperus rotundus* and *C. esculentus*)** – J. Pablo Morales-Payan, Raghavan Charudattan, and William M. Stall review the opportunities for the control of nutsedges using mycoherbicides
- 156 **R&D news** – reports on new products, new applications and new uses
- 158 **Research-based Small and Medium Enterprises (SMEs) speak out about the proposed revision of Directive 91/414/EEC** – David Packer describes how the consortium of research-based SMEs are resisting proposed changes in EU Directive 91/414/EEC
- 161 **Regulatory news** – new registrations, environmental effects and withdrawals
- 164 **The UK farm scale evaluations of GM crops – A post script** – Alan M. Dewar, Gillian T. Champion, Mike J. May and John D. Pidgeon reflect upon the lessons that have been learned from the farm-scale GM trials
- 174 **Company news** – reports on mergers, acquisitions, collaborations and sales
- 177 **Feral cats, colonies and wildlife** – Cole C. Hawkins describes the problems associated with feral cats and the various strategies that have been employed to reduce the damage that they cause to wildlife
- 179 **DNA uncovers the origin of psocids** – Katarina Mikac describes the search to find the origins of an important grain pest now widely spread in Australia
- 180 **Advanced pesticide formulation technology in China** – Alan Knowles
- 181 **Biotechnology news** – developments in molecular biology and genomics
- 183 **Glyphosate-resistant weeds: current status and future outlook** – Vijay K. Nandula, Krishna N. Reddy, Stephen O. Duke, and Daniel H. Poston review the current situation regarding the development of glyphosate resistant weeds following the increased cultivation of glyphosate-resistant crops and warn of a real loss in glyphosate efficacy if its uncontrolled use continues
- 188 **Does no-till farming require more herbicides?** – Theodor Friedrich discusses the use of herbicides in no-till farming
- 192 **The BCPC International Congress & Exhibition – Crop Science & Technology 2005**
