

**An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology**

# OUTLOOKS ON PEST MANAGEMENT

## CONTENTS – AUGUST 2007

- 146 **Editorial** – *The Role of Science in Public Policy – Pesticides*
- 148 **The use of harvest bags on Australian farms** – *Len Caddick describes the use of harvest bags for the safe storage of dry grain on-farm*
- 151 **International Award for Research in Agrochemicals – Experiences of a half-century of insect toxicology (1956-2006)** – *Derek W Gammon & Gerald T Brooks summarise the award and related symposium presentations given at the 233<sup>rd</sup> National Meeting of the American Chemical Society*
- 157 **Biotechnology news** – *developments in molecular biology and genomics*
- 160 **The phytoplasmas – a unique group of insect-transmitted plant-pathogenic bacteria** – *Matt Dickinson describes phytoplasmas, their taxonomy, transmission, detection, symptoms and control*
- 164 **Regulatory news** – *new registrations, environmental effects and withdrawals*
- 167 **A Plant Virus as a Bioherbicide for Tropical Soda Apple, *Solanum Viarum*** – *Raghavan Charudattan & Ernest Hiebert describe their attempts to develop a plant virus as a bioherbicide for a noxious weed*
- 172 **Training the operators of spray machines to prevent point source pollution of water with pesticides** – *Simon Cooper & Bill Taylor*
- 175 **R&D news** – *reports on new products, new applications and new uses*
- 178 **Mosquito Control in Florida with a Focus on Aerial Adulticiding** – *Mark Latham & Jane Barber describe approaches to the control of adult mosquitoes through aerial applications*
- 184 **The Chinese Pesticide Industry in 2006** – *Adapted from an article that appeared in issue 1 October 2006 of China Agrochemicals*
- 187 **Company news** – *reports on mergers, acquisitions, collaborations and sales*
- 192 **Calendar of Events**
