

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

FREE site-wide web access to the electronic form of this journal is provided with a full-rate subscription. See www.pestoutlook.com for more information or email info@researchinformation.co.uk

CONTENTS

COVER – Sunflowers in Fargo, North Dakota. Photo by Bruce Fritz. Reproduced courtesy of USDA-ARS.

- 242 **Editorial** – *Recommended pesticide dose rates: how low can you go?* – Phil Russell
- 244 **R&D news** – *reports on new products, new applications and new uses*
- 245 **Biotechnology news** – *developments in molecular biology and genomics*
- 247 **Regulatory news** – *new registrations, environmental effects and withdrawals*
- 249 **Company news** – *reports on mergers, acquisitions, collaborations and sales*
- 251 **Glasgow 2004 – The BCPC Linked Seminars** – *Len Copping and John Peregrine (Peregrine Regulatory Services) report on this new venture for BCPC and review some of the key papers*
- 254 **The Association of Applied Biologists: the first 100 years** – *A R Thompson, F A Langton, C A Millman, Association of Applied Biologists summarise the foundation of the AAB, its progress and achievements over the last 100 years and where it expects to be in coming years*
- 258 **Paraquat: boon or bane?** – *Len Copping introduces the following articles for and against the continued use of paraquat*
- 259 **Paraquat in perspective** – *Richard Brown, Michael Clapp, Jeremy Dyson, David Scott, Ian Wheals & Martin Wilks of Syngenta explain the benefits associated with paraquat use and how any potential risks can be avoided*
- 267 **Why paraquat should be banned** – *Barbara Dinham, Director, PAN UK, on behalf of Pesticide Action Network explains why the risks associated with the continued use of paraquat are too high and cannot be justified*
- 271 **Fungicide resistance: some practical aspects** – *Keith Cronshaw, formerly of BASF, describes some of the practical aspects that relate to the causes, detection and prevention of fungicide resistance*
- 275 **Stored-product insect management in flour mills** – *James F. Campbell, United States Department of Agriculture outlines new integrated pest management procedures in flour mills*
- 278 **Regional cooperation in the control of the olive fly in Palestine, Israel and Jordan** – *Fathi Abd el Hadi, Reuven Birger, Mustafa Natour, Tully Friedgut describe a successful joint project being undertaken by Israel, Jordan and the Palestinian Authority to control olive fly*
- 283 **Do GM crops harm beneficial arthropods through their feeding?** – *Sharon Downes, CSIRO Entomology reviews data on the effects of feeding insects reared on GM-crops to a variety of arthropod predators*
- 285 **Conference on Environmentally Friendly Spray Application Techniques** – *Graham Matthews reports on a spray application conference recently held in Poland*
- 286 **Book Review**
- 288 **Calendar of events**
