

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – JUNE 2005

- 98 **Editorial** – *The public's perception of pesticides* – Gareth Edwards-Jones
- 100 **Aquatic plant management: invasive species and chemical control** – M.D. Netherland, K.D. Getsinger, and D. R. Stubbs describe the problems of invasive aquatic weeds in North America and review the strategies that have been adopted to solve them
- 105 **Biotechnology news** – developments in molecular biology and genomics
- 107 **American Chemical Society National Meeting, Spring 2005** – Nancy Ragsdale, Allan Felsot, William Ridley, James Seiber, Bill Hall, Derek Gammon and Don Wauchope summarise the key presentations at the recent ACS meeting
- 110 **Soybean rust – a threat to agriculture in the United States** – Kent L. Smith describes soybean rust in the United States
- 114 **Vapormate™ – an environmentally friendly fumigant** – Louise Lawrence describes a new, safe system for treating stored grain
- 116 **Company news** – reports on mergers, acquisitions, collaborations and sales
- 119 **Plant pathology is lost without taxonomy** – Pedro W. Crous outlines the current trends in fungal taxonomy and the implications for plant pathology
- 124 **Regulatory news** – new registrations, environmental effects and withdrawals
- 127 **Book reviews**
- 129 **BCPC launches report on its second forum – “Enhancing the Eco-efficiency of Agriculture”** – John Fisher outlines the recent forum organised to consider ways to balance profitable crop productivity and environmental impact
- 131 **USDA Pesticide Data Program: pesticide residues on fresh and processed fruit and vegetables, grains, meats, milk, and drinking water** – John S. Punzi, Martha Lamont, Diana Haynes, and Robert L. Epstein describe the USDA Pesticide Data Program and summarise the data that have been collected over the last decade which indicate that there have been few pesticide residue problems in home-grown or imported fresh and processed crops
- 138 **R&D news** – reports on new products, new applications and new uses
- 140 **Society of Toxicology (SOT) Conference, March 6–10, 2005 at New Orleans, LA** Derek Gammon summarises the key topics discussed at the recent conference
- 144 **Calendar of events**
