

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – JUNE 2007

- 98 **Editorial** – *Will Biofuels burst the anti-GM bubble?*
- 100 **Locust control in Central Asia: MiGs versus Micronairs** – *Alexandre Latchininsky & Furkat Gapparov describe how sprayers based on MiG fighter engines were used to help combat locust plagues in the former Soviet Union and how newer ULV systems are beginning to replace them*
- 105 **Biotechnology news** – *developments in molecular biology and genomics*
- 109 **Fuelling the end of the Oil Age** – *Martha Simpson-Holley & Geraint Evans discuss the global biofuels industry and its effects on farmers, food supplies, economics and politics.*
- 114 **ACS National Meeting, Spring 07** – *Nancy Ragsdale*
- 115 **Regulatory news** – *new registrations, environmental effects and withdrawals*
- 120 **Alternative Strategies of Pesticide Management** – *Gamini Manuweera summarises the progress that has been made in Sri Lanka with the registration processes for pesticides*
- 124 **Gardening Without Chemicals** – *R G Turner considers the problems that gardeners encounter when they tackle weeds, pests and diseases in a garden without the use of chemicals*
- 128 **R&D news** – *reports on new products, new applications and new uses*
- 130 **Invasive, non-native plant pests** – *Raymond J C Cannon & Richard H A Baker outline the problems associated with alien species and strategies to combat their entry, establishment and associated damage*
- 135 **The XVI International Plant Protection Congress – Glasgow 15–18 October 2007**
- 138 **Best Practice in Disease, Pest and Weed Management** – *David V. Alford, BCPC describes a recent joint event held in Germany*
- 139 **15th International Reinhardsbrunn Symposium: Modern Fungicides and Antifungal**
- 142 **Company news** – *reports on mergers, acquisitions, collaborations and sales* 142
