

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – April 2010

- 54 **Editorial** – *Who Needs Research and Development?*
- 55 **GM Glyphosate-tolerant Maize in Europe can Help Alleviate the Global Food Shortage**
– *Alan M. Dewar explains why GM crops are needed to help to feed the world*
- 64 **Beech Bark Disease: The Oldest “New” Threat to American Beech in the United States**
– *Jennifer L. Koch describes the effects of beech bark disease in North America and reviews strategies for its control*
- 69 **Regulatory news** – *new registrations, environmental effects and withdrawals*
- 73 **The Biochemistry of Herbicide Resistance in Weeds** – *Ian Cummins and Rob Edwards outline the molecular mechanisms underpinning herbicide resistance in weeds*
- 78 **BIOBEDS** – *Bill Basford describes the role of biobeds in reducing point source pesticide pollution*
- 81 **Biotechnology news** – *developments in molecular biology and genomics*
- 84 **Cultivation of *Artemisia annua* in Africa and Asia** – *Antony Ellman, in the first of two articles on this important anti-malarial describes the potential of Artemisia annua cultivation for artemisinin production in the fight against malaria. In the next issue Elspeth Bartlett will describe efforts to increase the yield of the drug in the crop*
- 89 **Considerations of Soil-applied Insecticides for Termite Control** – *Chris Peterson describes methods to prevent termite structural infestations in the USA and factors affecting treatment efficacy*
- 94 **R&D news** – *reports on new products, new applications and new uses*
- 96 **Don Wauchope, Winner of the 2009 ACS International Award for Research in Agrochemicals, is Interviewed by Nancy Ragsdale**
- 99 **Making Sense of GM** – *Leonor Sierra talks about confronting public discussions about GM*
- 101 **Company news** – *reports on mergers, acquisitions, collaborations and sales*
- 104 **Calendar of Events**
