

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

OUTLOOKS ON PEST MANAGEMENT

CONTENTS – October 2011

- 198 **Editorial** – ‘Sustainable Intensification’ – Roger Turner
- 199 **The Effect of BT-Maize on Butterflies – Reckoning the Risk** – Joe N. Perry
- 206 **Regulatory News** – new registrations, environmental effects and withdrawals
- 211 **Overlooking the Obvious: The Opportunity for Herbicides in Africa** – Leonard Gianessi and Ashley Williams argue that poorly controlled weeds are the biggest constraint to improving crop production in Africa
- 216 **Cisgenic Disease Resistant Apples: A Product with Benefits for the Environment, Producer and Consumer** – Cesare Gessler
- 220 **Biotechnology News** – developments in molecular biology and genomics
- 223 **Treatment of Agriculture Runoff with Enzyme and Vegetation Removes Pesticides and Associated Toxicity** – Brian Anderson
- 226 **A Catastrophe of Cane Toads** – Dr David Dall
- 230 **R&D News** – reports on new products, new applications and new uses
- 234 **Report on the ‘Inside Government’ Conference ‘Meeting the Global Food Security Challenges of the Future Through Science and Innovation’** – Alan Baylis
- 238 **Division of Agrochemicals – ACS National Meeting, Fall 2011** – Nancy Ragsdale
- 241 **Company News** – reports on mergers, acquisitions, collaborations and sales
- 244 **Calendar of Events**
