An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

CONTENTS – December 2012

246 Editorial – More Training is Crucial for Improved Pesticide Use – Graham Matthews, Editorial Board Member

247 BCPC Weed Review Highlights Technology Solutions to Compensate for Product Losses at PGRO Peterborough on 24 October Published with the Agreement of BCPC

253 Supporting African Smallholders as a Means to Achieve Food Security – Kavita Prakash-Mani

255 Regulatory News – new registrations, environmental effects and withdrawals

258 Enhancement of Buffer Strips can Improve Provision of Multiple Ecosystem Services – Robin J. Blake, Duncan B. Westbury, Ben A. Woodcock, Peter Sutton and Simon G. Potts

263 CropWorld Global – Observations and Key Issues – Leonard G. Copping & Graham Matthews

265 Potential for Additional Ecological Realism in Pesticide Risk Assessments for Spring Seed Treatments? – Alan Lawrence

268 Biotechnology News – developments in molecular biology and genomics

272 An Interview with Marcus Meadows-Smith on the Bayer CropScience/AgraQuest Acquisition – Everybody Wins! – Leonard G. Copping & Graham Matthews

274 Trends in Outsourcing within the Agrochemical Industry – Alistair Stalker

276 Biological Control in the Greenhouses of Almería and Challenges for a Sustainable Intensive Production – Richard Glass and Francisco Javier Egea González

280 R&D News – reports on new products, new applications and new uses

283 Is it Time to Formally Recognise Spatial Repellency for Disease Prevention? – Nicole L. Achee & John P. Grieco

287 Mr Bittman, Reducing Herbicide Use on Farms is Not Simple – Pesticide Guy

288 Company News – reports on mergers, acquisitions, collaborations and sales

292 Calendar

COVER PHOTOS: Cotton bollworm (Helicoverpa zea) (Photo by Scott Bauer) and Aedes (Ochlerotatus) sp. mosquito on human skin both reproduced courtesy of USDA-ARS; Cocoa showing both frosty pod rot (Moniliophthora roreri) and witches’ broom (M. perniciosa) on the same branch (Ecuador) (Photo by Roy Batemen); Unsprayed strip in sugarbeet showing poppies (Papaver spp.) (Photo by Alan Dewar)
