

An international journal covering the management of weeds, pests and diseases through chemistry, biology and biotechnology

# OUTLOOKS ON PEST MANAGEMENT

## CONTENTS – December 2015

- 238 **Editorial** – *John Lucas, Editorial Board Member*
- 240 **Blackgrass, A Grower's Perspective** – *Edd Banks outlines a farmer's approach to controlling blackgrass*
- 243 **Regulatory News** – *new registrations, environmental effects and withdrawals*
- 248 **How Has Plant Breeding Contributed to Agricultural Sustainability?** – *Rebecca Carter & James Clarke discuss the achievements of plant breeding for improving tolerance and/or resistance to weeds, pests and diseases and how advances in these areas have contributed to agricultural sustainability*
- 252 **The BCPC Annual Weed Review 2015** – *Ken Pallett*
- 254 **Biotechnology News** – *developments in molecular biology and genomics*
- 257 **Conservation Tillage Under Threat in the United States** – *Leah M. Duzy, Andrew J. Price, Kip S. Balkcom & Ted S. Kornecki explain how the introduction of GM crops has contributed to a decline in conservation tillage practices*
- 263 **Book Review** – *Alan Baylis*
- 264 **R&D News** – *reports on new products, new applications and new uses*
- 269 **BCPC Congress 2015 Brighton: A Report on the Two Day Meeting on EU Crop Production Regulation** – *Graham Matthews*
- 272 **What is Wrong with GMOS?** – *Colin Tudge argues that we need to re-think all agriculture from first principles – the practice, the science, the economics, the governance and the underlying ideology*
- 277 **Company News** – *reports on mergers, acquisitions, collaborations and sales*
- 281 **Biopesticides** – *a summary of the meeting on biopesticides Biopesticides – Innovative Technologies and Strategies for Pest Control Leonard G. Copping*
- 287 **Calendar of Events**

COVER PHOTOS: Cotton bollworm (*Helicoverpa zea*) (Photo by Scott Bauer) and *Aedes* (*Ochlerotatus*) sp. mosquito on human skin both reproduced courtesy of USDA-ARS; Cocoa showing both frosty pod rot (*Moniliophthora roreri*) and witches' broom (*M. perniciosa*) on the same branch (Ecuador) (Photo by Roy Batemen); Unsprayed strip in sugarbeet showing poppies (*Papaver* spp.) (Photo by Alan Dewar)
