

# THE INTERNATIONAL JOURNAL FOR TECHNOLOGY IN MATHEMATICS EDUCATION

Volume 17, Number 1

- 1 Editorial
- 3 Symbolic Calculators in Mathematics Lessons – The Case of Calculus  
Hans-Georg Weigand and Ewald Bichler
- 17 Meanings Generated While Using Algebraic–Like Formalism to Construct and Control Animated Models  
Chronis Kynigos, Giorgos Psycharis, Foteini Moustaki

## **Ideas for Teaching and Learning**

- 33 Those do what? Connecting Eigenvectors and Eigenvalues to the Rest of Linear Algebra: Using Visual Enhancements to Help Students Connect Eigenvectors to the Rest of Linear Algebra  
Melvin A. Nyman, Douglas A. Lapp, Dennis St John and John S. Berry
- 43 Using Interactive Simulations in Assessment: The Use Of Computer-Based Interactive Simulations In The Assessment Of Statistical Concepts  
David L. Neumann
